Articling is a crucial part of a lawyer's training and choosing a law firm is a very important decision for a new graduate. Choosing where to article and practise law is equally significant.

Hamilton is the Regional Centre of the Superior Court with regular sittings of Provincial, Divisional and Family Court. The John Sopinka Court House opened in 1999. The building transformation includes state of the art facilities while maintaining the heritage of the original structure evident in the historic, heritage corridor of the old Post Office.

Hamilton is a city large enough to generate interesting legal work, while at the same time our law firms are sized to offer students challenging hands-on experience. Students argue motions, meet with clients, and get right down to doing legal work.
